Dear Governor Palin:

This e-mail is a follow-up to the invitation sent to you by the City of Nunapitchuk a few days ago to celebrate the elimination of the "honeybucket" from the community. Please see the invitation below.

We would be very honored if you were able to attend this occasion. If you are not able to attend personally, we would welcome a representative on your behalf.

Sincerely,

Mark Baron
President
Cowater Alaska Inc.

Time	What

10:00 - 12:30	**Tours**
1:00	**Program**
2:30	**Refreshments & Door Prizes!**

Nunapitchuk has made great strides to improve water and sewer service in the village since 1993/94 when the first Flush Tank and Haul ® units were installed. Today, the honeybucket is virtually eliminated and numerous other projects are complete.

Thank you to the State of Alaska's Village Safe Water, the Environmental Protection Agency, the United States Department of Agriculture Rural Development and Cowater Alaska for helping Nunapitchuk make these remarkable improvements.

MESSAGE:

Gov. Sarah Palin

Hello sarah would like to meet you personally some day . I am a freind of Vickie Clark who works with the irondog race every year. My wife is Charla Nelson (maiden name) nickname Char . She says you grew up together in wasilla. Well heres what my problem is ... FISH&GAME is out of touch with themselfes, I am a avid hunter since 1967 when we moved here . Ever since we moved here hunting was taught to me when i was just a kid. Ive been mainly hunting caribou in the lake louise area since i was 10 years old, (40 years total). Guess what !! this is the first year the game board did not give me a permit to hunt tier II . This came to a blow to me hunting to me is not a subsintance issue but a way of life , my passion , never broke the rules , always assisted troppers in the field finding bad hunters . What am i supposed to do? clearly someone is way out of touch at game headquarters. How could this happen? Would you clean house at fish&game like you did at mat maid, that wa!

s awesome . I would like the chance to be on this board , its clear its very messed up . I think i have a lot of good ideas on how to fix this hunt. But this year i just stay home and watch the young & poor hunt. You would not believe the people who got the permits this year, my step daughter never hunted b4 got one my son got one . this really burns me up where they got these ideas without any public input . Please try to fix this problem if you have time, i know you are very busy, char tells me your parents hunt this hunt did they get permits? Thanks for the great job you are doing thusfar. My dream is open anwr, get a gas line, open the pebble mine project, and leave the loggers alone in the tongas . What a dream huh! Alaska is vast place and needs to be developed in a environmently safe conditition . I vote work and applaud anyone who kicks a tree hugger in the butt . Thanks

Yours truly Chris Lee

Subject: CSPAN and Life-A-Thon

CSPAN is interested in having you as a guest this Sunday at 7:30 a.m. It would be a half hour show hosted by Peter Slen. It is an interview and call in show. Likely topics will include energy issues, your open, ethical and transparent administration (they have read up on you), the national political arena, and U.S. Senator Stevens. This program will be on during the time you have an opportunity to go to a church service. Please let me know if you are interested.

Also, Karen Lewis (local) with the Life-A-Thon is hoping for a few minutes of your time for a taped message. KATV and KAFC, the Christian stations are going to air the Life-A-Thon over a two week period. They would tape an interview or even a quick message if you like. Others who have contributed are Wayne Anthony Ross and Loren Lehman. Again, if you are interested, let me know.

Thanks!

Subject: Ppt

There will be continued confusion after Doogan's article today re: me "waffling" on ppt now.

I haven't waffled. We do need to revisit it - soon - I'm just waiting on the recommendation of WHEN.

Confidentially - Bitney has created a lot of this confusion by telling others (we're hearing more accounts of this) that we changed our mind. NOW is the time to clear up any confusion so the timelines will be set and we can get things accomplished.

I will be quite adamant in my answers to the continued question on sp session: "I haven't changed my mind. Of course we have to revisit ppt, I'm just waiting on recommendation regarding timing of sp session. It's my intention to call this for October."

Subject: Climate Change

Hi Larry:

My brother, Chuck Heath, is one of the school teachers participating in the Climate Change study program (for science teachers) at UAF this summer. He'd like to talk to you about

his ideas for a task force - I explained you have the sub-committee already studying the issue, but maybe there are ideas from what he and his fellow teachers are learning that could be incorporated into our sub-committee's mission.

Chuck's request comes on the heels of some great ideas that Tom and Marty shared with me re: Alaska really getting serious about dealing with climate change impacts.

If you want to contact Chuck, his email address is chckheath@yahoo.com. His emails on this matter are attached below. If it's more convenient, I could give himt your email address?

I'm getting more and more enthused about digging into the subject and working on it - especially after hearing from Tom and Marty on ideas they believe the state could be considering. Thanks for your patience with me along the way!

MESSAGE:

Dear Sarah, Friend of Beringia!

The Beringia Museum of Culture and Science Project, led by Kawerak, Inc. is making great strides towards the reality of a state-of-the-art cultural facility here in Nome, Alaska!

July 9 & 10 kicked off our first session of three 10% Design Workshops, with architects, an exhibit designer, and about thirty residents and representatives of local organizations who came together to visualize their hopes and dreams for a new museum.

We are happy to announce we have also just completed a Business Plan for the planned facility. This plan is the results of 16 months of intensive research and meetings to

determine the scope and size of the Beringia Museum. Agnew::Beck Consulting of Anchorage facilitated the development of this comprehensive plan, and I am proud to say the results are impressive. I will be happy to share this document with you upon request.

I hope you will consider joining us in Nome, at the Old St. Joe's Hall July 30, 10A-4P for the next 10% Design work session, when we will review the facility concept designs that the architects from Charles Bettisworth & Co will present for our review and recommendations. Our final 10% Design work session will be August 21, same time and location. Please become a part of this dynamic process to visualize the design of this exciting new museum facility.

Your support of this important regional facility is vital to the project's successful realization. I hope you will consider becoming an advocate for this cultual and scientific initiative.

I would welcome the opportunity to discuss the Beringia Museum project with you at your convenience.

Thank you for your time and consideration.

Respectfully,

Kaci Fullwood, Project Director

Subject: Re: Ppt

Got asked again today by McAllister because I used the term "probable sp session this fall" when discussing Vic Kohring's replacement. Bill zipped right past the big announcement of Wes Keller and focused in on sp session again. Y'know, I think the tremdendous interest in this, esp by reporters, has to do with logistics - they want to know where they should plan on camping this fall - Juneau or road system? October or later?

Bradner got his other front-page story wrong, too, on our operating budget. I think he woke up on the wrong side of the bed the day he filed those stories.

<marty_rutherford@dnr.state.ak.us>

Subject: RE: Ppt

Governor,

I apologize for the confusion. The articles were written by Tim Bradner who took my statement that we had not found a fundamental flaw with PPT (something different than what was expected), and spun it as a tacit endorsement. Tim has a viewpoint that comes through in his reporting. Throughout our interview, I never implied that PPT was good; in fact, I told him that I thought we could do better to target the credits toward the riskier exploration side, not give them across the board as PPT does. Tim chose to downplay those statements.

Until we complete our review, make a recommendation to you, and you announce your intentions regarding a special session, I'm trying to keep the press message as a fair assessment of the options.

I'm also looking forward to our next meeting on PPT. I expect it will be early next week. I still believe we will come up with a better option on the gross, but the politics are explosive, so we need to have all our ducks in a row before we launch anything. Tibbles and Joe will have thoughts on that issue.

Again, I'm sorry the article created confusion. I agree with you that the sooner we come together on our plan, and get a positive message out, the better.

-Pat

Pat- we'll hopefully be meeting on ppt soon. The articles in yesterday's ADN and J of C sounded like a one-eighty departure from the consistent message re: ppt NOT being "sound". I was asked to respond yesterday by a few reporters in Juneau, and also by legislators who may now think we're confused... as they still expect the sp session call this fall and were surprised to read your comments. My response was that I haven't changed my mind about the need to revisit ppt this fall.

Subject: Sr. Executives from Williams Pipeline & Midstream asking to meet with you, Comm's Irwin, Galvin & Marty R

Governor,
I just received a call from Williams Energy Company. Senior Executives from Williams (see list below) are asking to meet with you, Commissioner Irwin, Commissioner Galvin and me here in Anchorage, either Monday afternoon, July 23rd, or Tuesday morning, July 24th for 30 minutes. Williams Energy Company previously owned the refinery in Fairbanks, which is now owned by Flinthills. Williams is an energy company and their portfolio includes pipelines and other midstream assets. They are very interesting in participating in AGIA and therefore I would like to accommodate their request if possible. If you are not available I am sure the Commissioner's and I could meet with them, but it will not have the same impact. Furthermore, I am sure that if you could not accommodate these times, they would try to respond to your availability.

The Williams attendees would be:
Phil Wright, President Williams Gas Pipelines & Sr. Vice-President Williams Energy Co.
Alan Armstrong, President Williams Midstream & Sr. Vice-President Williams Energy Co.
Tim Penton, Vice-President Williams International

Please advise how you would like to handle this request.
Thanks,
Marty

Subject: HOT! FW: Williams meeting

Governor,
I just spoke with the Williams people and they responded by telling me they are at a critical meeting in the "Williams decision tree as to whether to participate in AGIA". They are asking if they could fly (they are on their coporate jet so they are very mobile) to Michigan to meet with the Governor and hook-up us up via phone from Alaska. Is this a possibility?
Marty
